Mert Calkan

MERT CALKAN

DEVELOPER

ABOUT ME

I'm studying Software Development at Yeditepe University. I'm in 4th grade. I am interested in software since totally 3 years. I love web development and right now I'm learning the Neptune DXP.

EXPERIENCE

2022(JUNE-AUGUST)

RAST SOFTWARE - INTERN

I learnt fundamentals of Neptune DXP and SAPUI5. Improved my JavaScript knowledge. I am currently working part time at Rast Software.
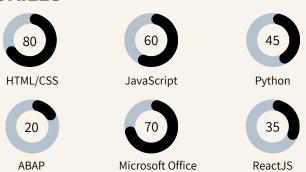

2023(JUNE-AUGUST)

RAST SOFTWARE - INTERN

I have learned the basics of SAP Fiori and developed a few examples based on it.

2024

I coded the interface for the document management system project of the DEWA (Dubai Electricity and Water Authority) in Neptune DXP, integrating the frontend and backend connections. During this process, I became familiar with SSO (Single Sign-On) methods, including Principal Propagation and X.509 Client Certificate Authentication Method.
